Mc Chem-Anlagen
Infratech & Energies Private Limited

Mc Chem-Anlagen Infratech & Energies Private Limited

McChem-Anlagen is a Joint Venture formed between Mc Chem & Co of Bhilai and Elektro Anlagen of Chennai. Mc Chem, having a strong presence in Central India has majorly been into UPS, Batteries & Battery Charger trading and servicing and have over the years progressed into a Turnkey Class A Electrical Contractor undertaking works like Substations, Township electrification, etc.

Elektro Anlagen, on the other hand, has primarily been a turnkey Electrical/Electronics/Automation equipment and solution supplier operating across different industry verticals principally in the Low Voltage segment. That is, from the Main LT Bus Duct, EA can design, manufacture and supply all downstream equipment.

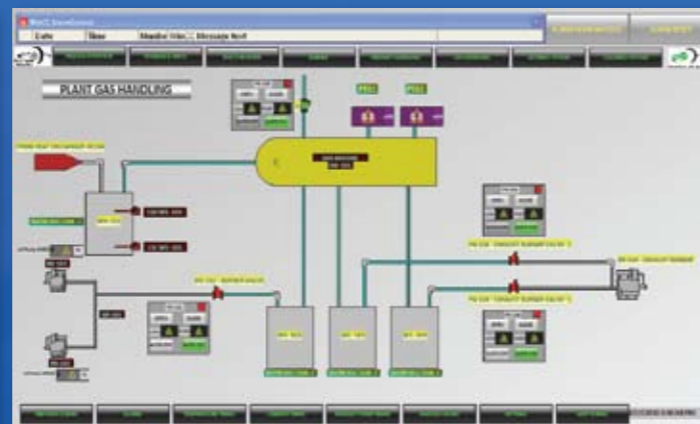

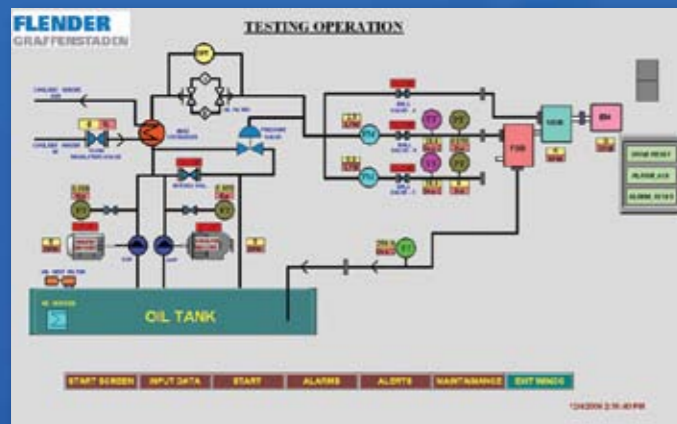

- Main LT Bus Duct
- LT Power Control Centre
- LT Motor Control Centre
- Drives
- Automation
- Distribution Boxes
- Local Push Button Stations/Junction Boxes.

EA has been known for its Quality in all spheres of business with many prestigious projects under its repertoire. Also, EA partners global MNC's like Siemens and Bosch Rexroth.

Combining the strength of both the firms, Mc Chem-Anlagen can now serve YOU, our esteemed customer as a Turnkey Electrical/Electronics/Automation Contractor with in-house products which will be engineered within the group, manufactured at our state of the art facilities at Bhilai or Chennai & installed, erected and commissioned at your site. Apart from this, we will also be with you throughout the life cycle of our products and solutions with the help of the strong service network that Mc Chem has set up over the years.
